

Heroic Boons

Character creation

1. **Class.** Choose one of the following 12 classes: ARTIFICER, BARD, BERSERKER, CLERIC, COMMANDER, DRUID, HUNTER, OATHSWORN, ROGUE, ZEPHYR, WARLOCK, WIZARD.
Denote your advantaged (+) and disadvantaged (-) save. Note your class's special abilities on your character sheet.
2. **Base stats.** Choose one of the following three arrays and assign the scores to your four base stats Strength (STR), Dexterity (DEX), Intelligence (INT) and Willpower (WIL). Recommended to put your highest stats to your the KEY scores (see your class).
Standard: +2, +2, +0, -1
Balanced: +2, +1, +1, +0
Min-Max: +3, +1, +0, -2
3. **Skills.** For each of your skills, note the bonus from the relevant stat (e.g. +2 on INT gives you +2 on Arcana). In addition, distribute **3 skill points** between these skills (spread across at least 2 different skills). Each gives +1 to the relevant skill.
4. **Ancestry and Background.** Choose an ancestry and a background and note their special abilities on your character sheet.
5. **Further stats.** Note your starting Health Points (see your class), your Health Dice size and maximum amount (usually equal to your level), your Speed (usually 30 ft.), your Initiative (usually equal to your DEX) and your inventory slots (10+STR).
6. **Languages.** Each character speaks Common and INT further languages. In addition, your ancestry may grant you additional languages.
 - **Common.** Spoken by most creatures.
 - **Elvish.** Spoken by elves and some gnomes.

- **Dwarvish.** Spoken by dwarves and some gnomes.

7. **Heroic Boon.** Choose a Heroic Boon from the following list.
8. **Equipment.** You start with common clothes, a backpack, a bedroll, a weapon of your choice, rations (d6) and a pouch with 40 gp which you can spend to buy further non-magic starting equipment.

Leveling Up

1. **Health Points.** Roll your Health Die, rerolling 1s, and add that to your maximum HP. Increase your Health Dice maximum by 1.
2. **Extra skill point.** Gain 1 skill point. You can't have more than LVL skill points in a single skill (maximum: 8).
3. **Class features.** Gain new class features for your level.
4. **Other adjustments.** If any of your base stats increases, make sure to adjust other elements influenced by this stat as well.

MAGE

Key Stats: INT, WIS **Health Dice:** 1d8 (starting HP: 13)
Saves: WILL+, STR-- **Armor:** Cloth **Weapons:** Daggers, Staves, Wands

- LEVEL 1** **Elemental Spellcasting.** You know Fire, Ice and Lightning cantrips and 1 additional elementary magic cantrip of your choice.
- LEVEL 2** **Tier 1 spells.** You unlock Tier 1 Fire, Lightning and Ice spells and get a mana pool to cast these spells. This mana pool's maximum is always equal to $\text{INT} + 2 \times \text{LVL}$ and recharges on a Long Rest.
- LEVEL 3** **Mage Subclass.** Choose a Mage subclass.
- LEVEL 4** **Tier 2 spells.** You may now cast Tier 2 spells and upcast spells at Tier 2.
- LEVEL 1** **Elemental Spellcasting.** Choose two of the following schools: Fire, Lightning, Ice. You learn their cantrips.
- LEVEL 2** **Mage Subclass.** Choose a subclass. **Tier 1 spells.** You unlock Tier 1 Fire, Lightning and Ice spells and get a mana pool to cast these spells. This mana pool's maximum is always equal to $\text{INT} + 2 \times \text{LVL}$ and recharges on a Long Rest.

Magic A thing that allows you to do real cool stuff.

- LEVEL 4** **Tier 2 spells.** You may now cast Tier 2 spells and upcast spells at Tier 2.

Illusionist

Mage Subclass

Illusionists specialize on playing tricking others' minds, making them believe they see things that aren't real.

LEVEL 3 **Visage Weaver.** You learn the Illusory Image spell (detailed below).

Sound Weaver. Action: Create a sound that you could create with your own voice within 50 ft. (example: a scream or a few spoken words or a short melody).

Examining illusions. Unless they have a reason to be suspicious, creatures treat illusions as if they were real. Physical interactions reveal the illusory nature because things can pass through them.

LEVEL 7 **Permanent illusion.** You can cause your illusions to last even after the spell ends. If you do so, they remain inanimate and freeze where they were when the spell expired.

LEVEL 11 **Master illusionist.** When you create an illusory image, you can make it include sound for free, and the illusion also includes sensory effects such as heat if appropriate.

LEVEL 15 **Intelligent illusion.** When you create a permanent illusion, you may describe a specific trigger that activates the illusion again, causing it to behave in a pre-defined way for up to 10 minutes, just as if the spell was cast again, even if you are not near it. The illusion can even take part in simple conversations.

TIER 1 **Illusory Image**

3 ACTIONS

(Concentration, up to 10 minutes.) You create a purely visual illusion in an empty space within 30ft. that fits into a 2ft. cube. The image can move as you like.

Upcasting: For each additional mana spent, choose: +2ft. size, +40ft. range or add sound to the illusion.

Spells

ENCHANTMENT

Enchantment magic is used to manipulate other beings' mind and body.

Targets. Unless stated otherwise, the following spells can only affect humanoid creatures and beasts.

Range. Enchantment spells have a range of 50ft.

Whenever a creature succeeds on its save against an enchantment spell, it is immune against this spell for 24 hours if used by the same spellcaster.

Elementary magic (available for all casters)

CANTRIP
1 ACTION

Calm Emotions

TIER 1
2 ACTIONS

Sleep

A target within 30ft. that is not doing something particularly exciting when you cast this spell falls asleep for 1 hour.

Upcasting: +1 target for each additional mana spent

TIER 1
1 ACTION

Fear

A target within 30ft. becomes frightened of you on a failed **WILL save**. If you are no longer near it, the spell ends.

Frightened. The creature waits cautiously and is generally afraid of you, but does not flee. It does not take actions, but the spell ends if the creature or any of its allies is involved in combat.

Upcasting: +1 target for each additional mana spent. If at least 5 mana is spent, the targets flee and are utterly terrified for 1 hour.

TIER 2
2 ACTIONS

Command

On a failed **WILL save**, a target within 30ft. acts according to your suggested actions for a few seconds unless that action requires a great amount of effort (such as attacking someone or casting a spell).

TIER 2
1 ACTION

Shrink

You or an adjacent creature shrink to half their original size in all dimensions, granting them -3 STR. The effect ends after 10 minutes. Unwilling creatures can make a **WILL save** to prevent this.

TIER 3
1 ACTION

Grow

You or an adjacent creature grow to twice their original size in all dimensions, granting them +3 STR and −3 DEX. The effect ends after 10 minutes. Unwilling creatures can make a **WILL save** to prevent this.

TIER 3
1 MINUTE

Dominate

(Concentration, up to 1 hour.) A target within 30ft. is taken over by you on a failed **WILL save**. You can control its actions with precise instructions, but it has no self-initiative otherwise and stands passively, only reacting to immediate danger. The target's self-initiative is so small that it can't cast spells or answer questions with anything else than **yes** or **no**. The spell ends if the target drops below half of its maximum hit points or if any of your commands is against the target's nature. This spell cannot affect creatures above level 1 (beasts count as 2 levels lower).

Upcasting: For each additional mana spent: +1 hour or +1 maximum target level.
